Scholastic sections open to all chess players in grade school through the 12th grade. Sections broken up by grade and skill level. Sections begin with the Kindergarten grade level, but younger players can participate if they are willing to play in that section. Each section will have approximately 6–10 players and each student will play all the other players in their section in a round robin format. Trophies awarded to the first three places in each section. All players will leave with an award. Chess sets will be provided.
